About Us

At Nucleios, we believe in the power of collaboration and innovative ideas. Our team stays ahead of the curve, using the latest tech to create digital solutions that drive real results. We're all about building strong relationships with our clients and helping their businesses reach new heights. More than just a software company, we're a community of innovators, working together to give your business a brighter future.

We're here to empower our customers by bringing together talented engineers, deep technical knowledge, and a passion for creating game changing software. We're more than just an IT service provider, we're a trusted partner. By combining the agility of a small company with the strength of a larger one, our success comes from the achievements of every person on our team.

Our Services

As a leading tech company, we specialize in delivering innovative solutions tailored to your unique needs. Our team of skilled experts leverages cutting-edge technology to develop efficient, reliable, and user-friendly systems that drive your business forward. From custom software development to data analytics and cybersecurity, we provide comprehensive services designed to optimize your operations and achieve your goals.

Our Services

◆ **AI/ML Solutions**

We guide AI and ML projects from concept to deployment, delivering innovative, user-friendly solutions with quick delivery and strong security to protect your data.

◆ **Web Applications**

With expertise in FinTech, Healthcare, and e-Commerce, we build custom web apps, SPAs, portals, ERP, and CRM systems, tailored to meet your business needs and ensure client satisfaction.

◆ **Resource Outsourcing**

We offer IT staff augmentation for projects of all sizes, from prototyping to full-scale development. With over 50 skilled developers, we seamlessly integrate with your team and assist in recruitment to find the perfect fit.

◆ **SaaS Solutions**

We build custom SaaS products that enhance productivity and streamline processes. From project management tools to customer systems, we provide tailored solutions for all types of businesses.

◆ **MVP Development**

We transform your business idea into a working prototype using .NET and Python, helping you validate your concept quickly. Our rapid development process ensures your product aligns with your vision.

◆ **Custom Software Development**

We create tailored software solutions that solve business challenges, meet market needs, and stay ahead of digital trends. From concept to deployment and beyond, Nucleios experts guide you through every stage for seamless success.

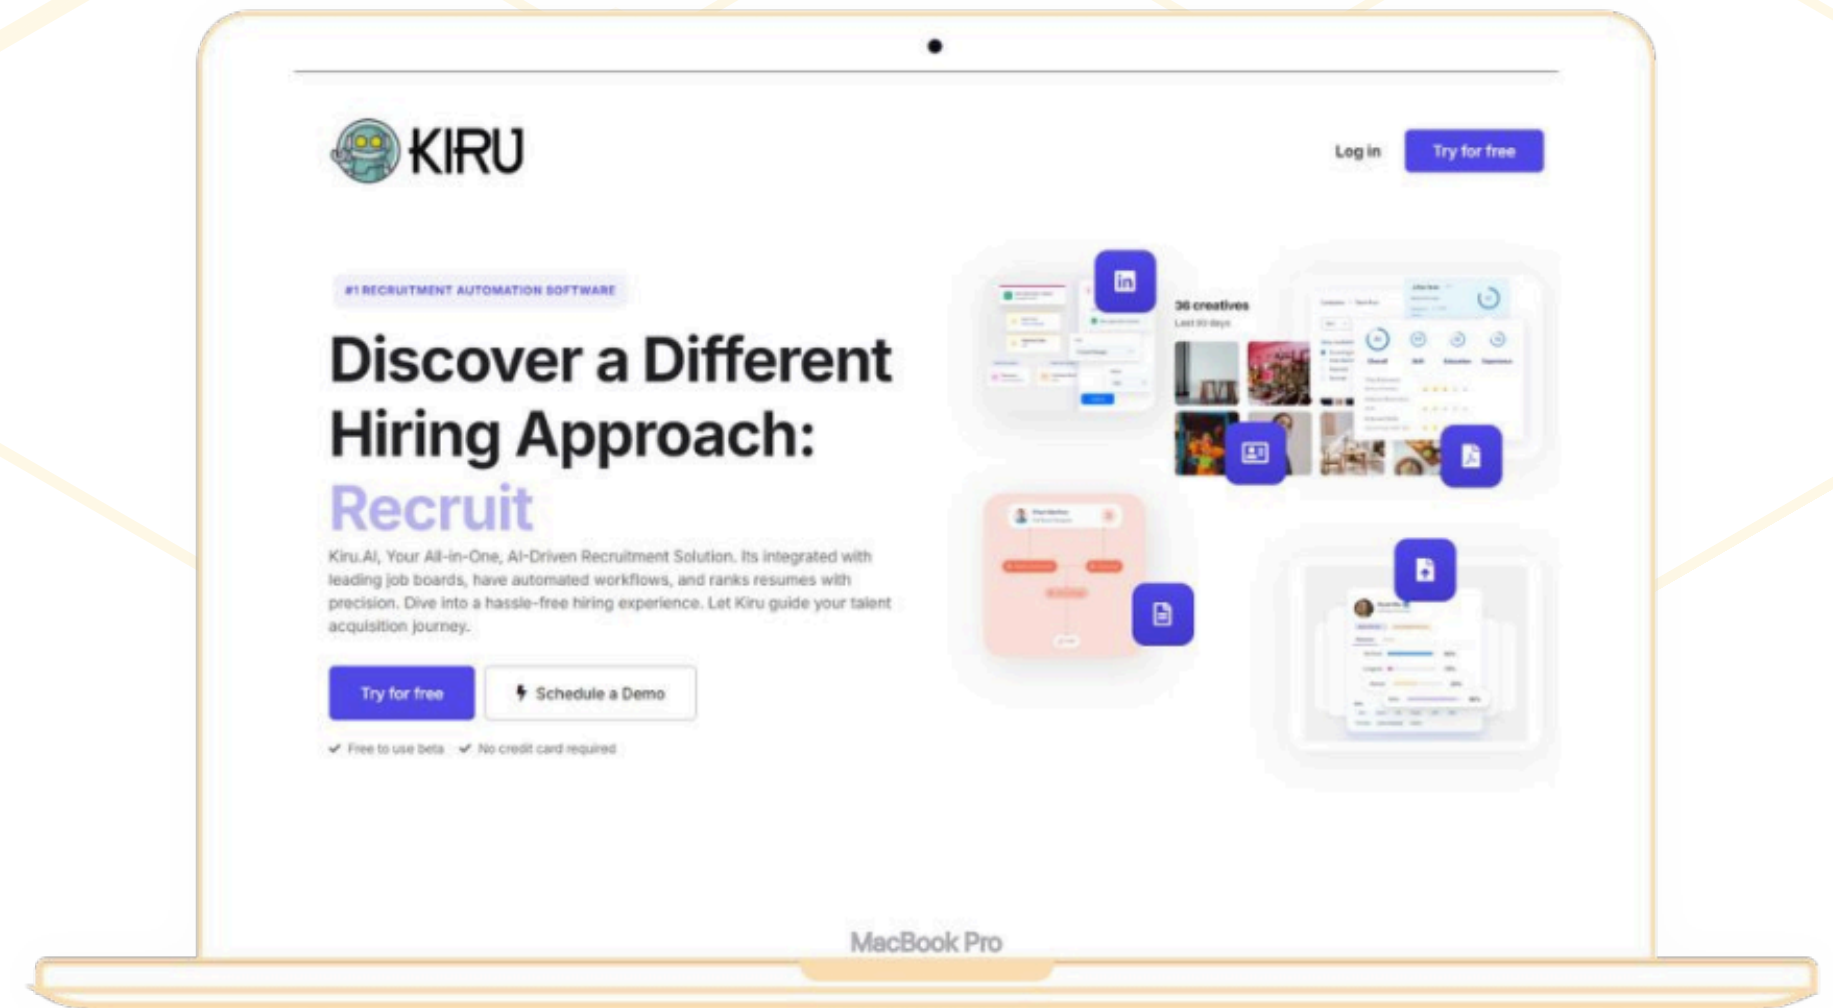

Recent Projects

Kiru

AI-driven recruitment solution integrated with leading job boards, featuring automated workflows and leveraging LLM GPT integration to score candidates and streamline job postings effortlessly. It combines advanced AI algorithms with user-centric design principles.

www.kiru.ai

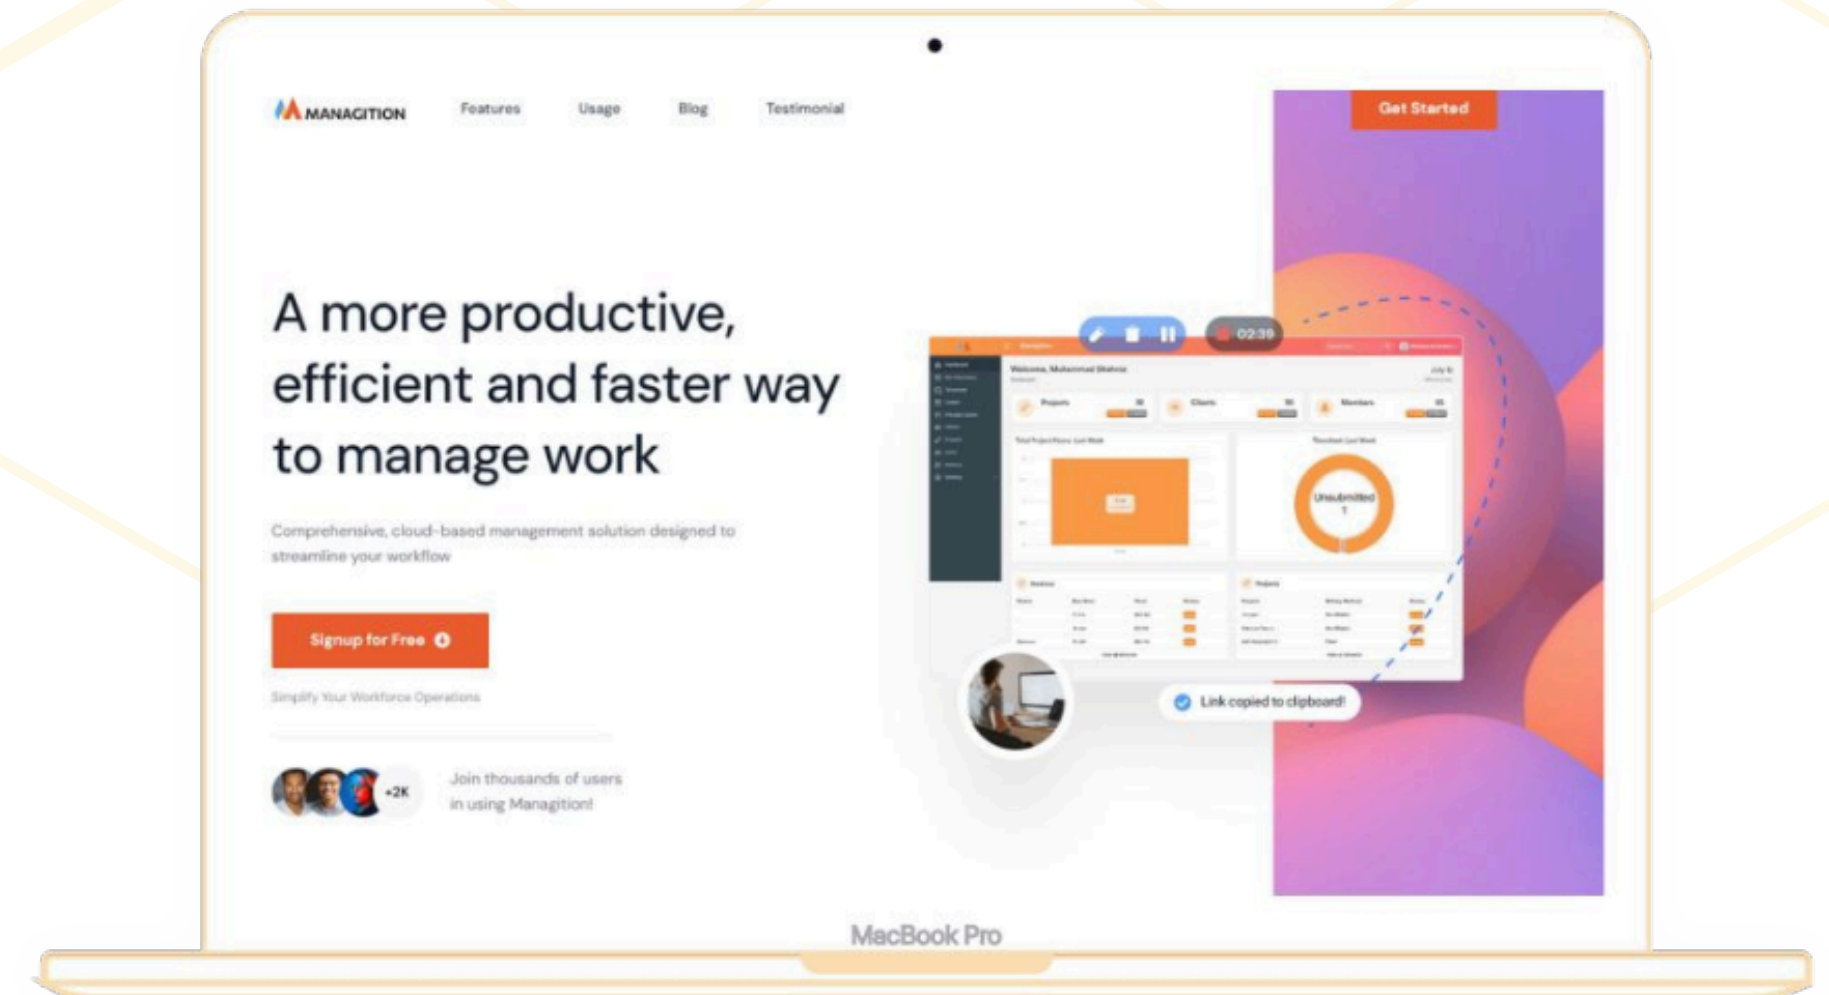

Managition

Managition is a cloud-based, all-in-one HR and workforce management software that simplifies everything from employee data to project and client management. With built-in invoicing and third party integrations, it helps you track key metrics and make smart, data driven decisions.

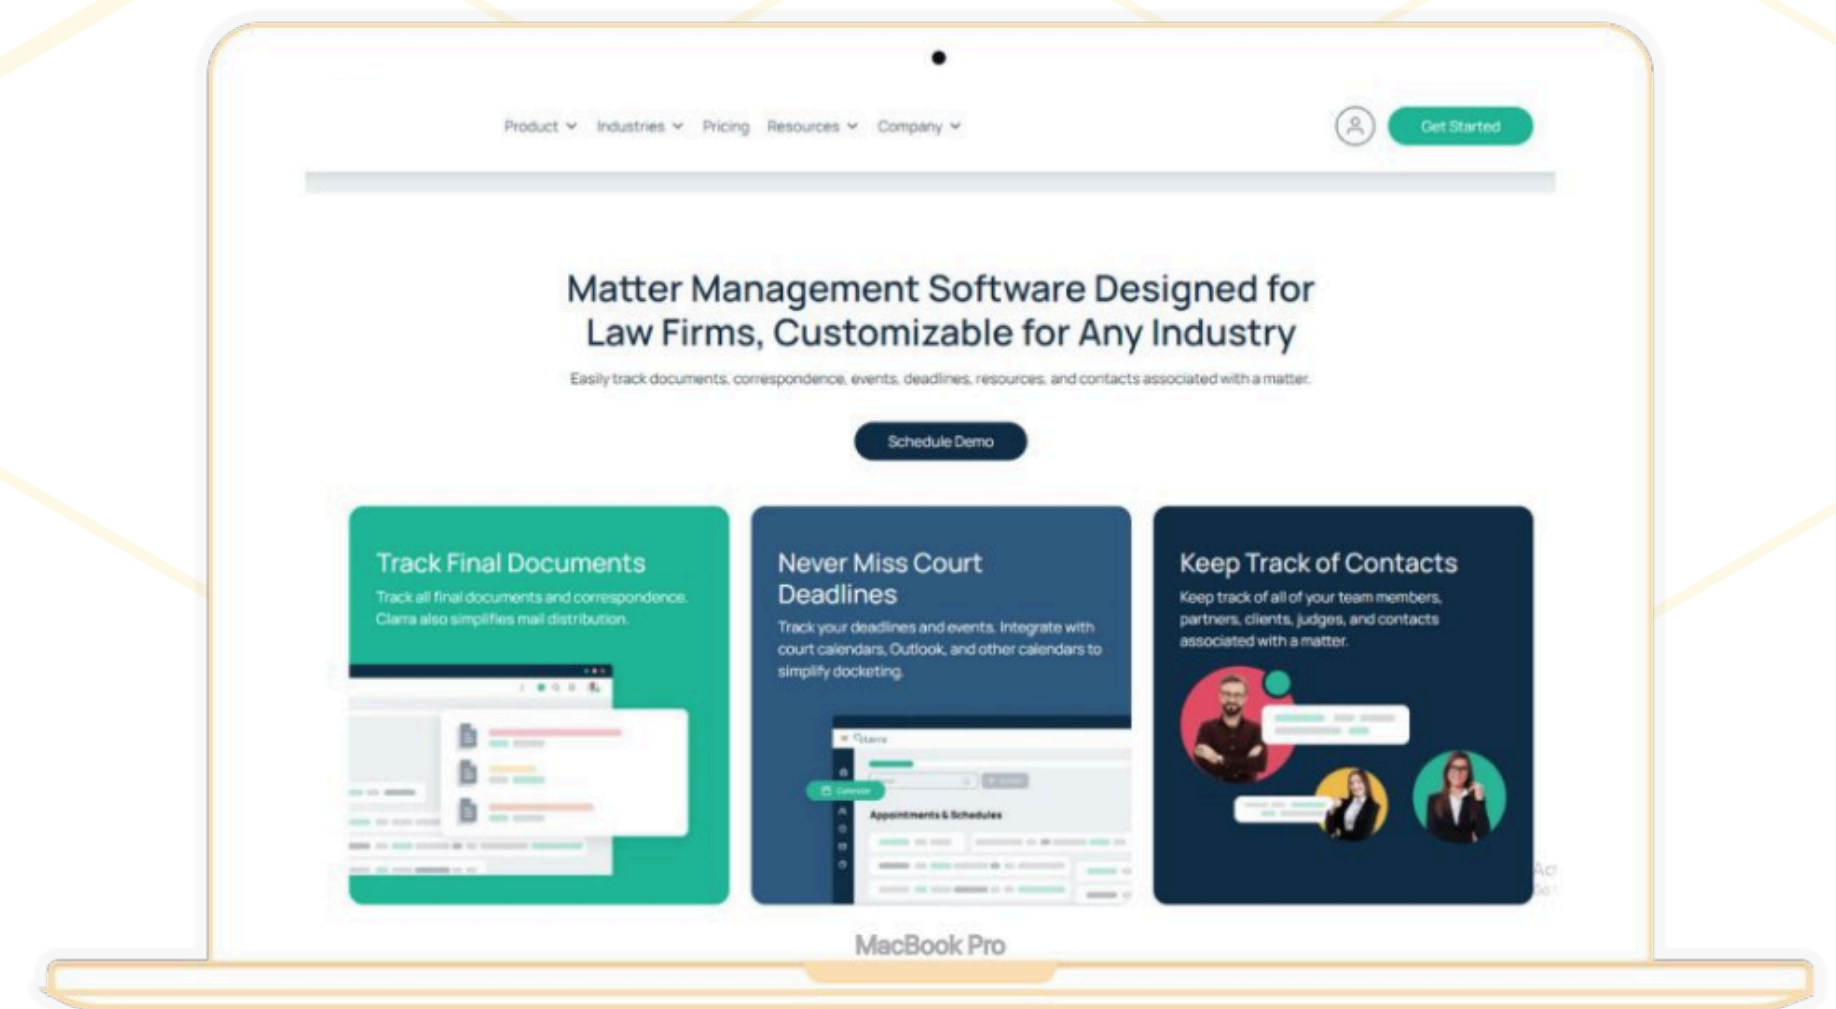

www.managition.com

Clarra

Clarra is a cloud-based legal practice and case management software that streamlines complex litigation. It provides law firms with an all-in-one platform to manage cases, documents, and clients seamlessly.

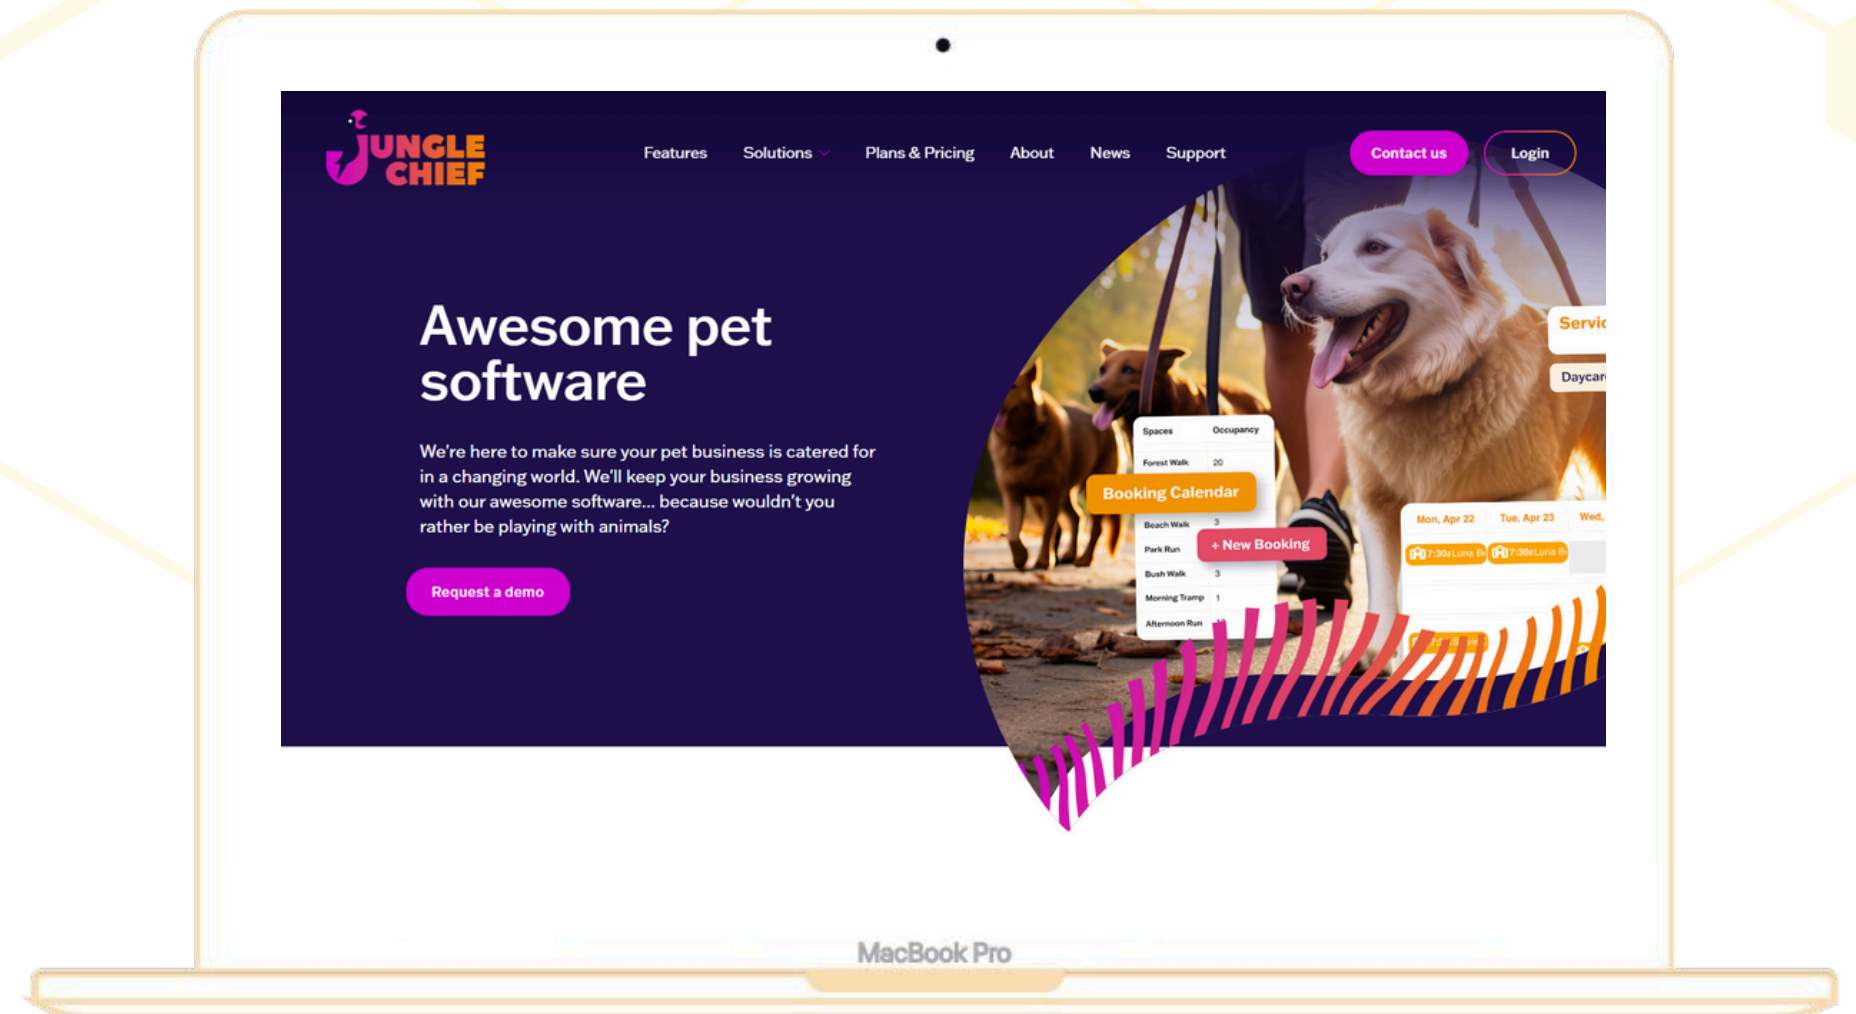

Jungle Chief

Comprehensive multi-tenant software solution for pet care vendors, facilitating the management of multiple services, locations, health records, and seamless integrations.

www.junglechief.com

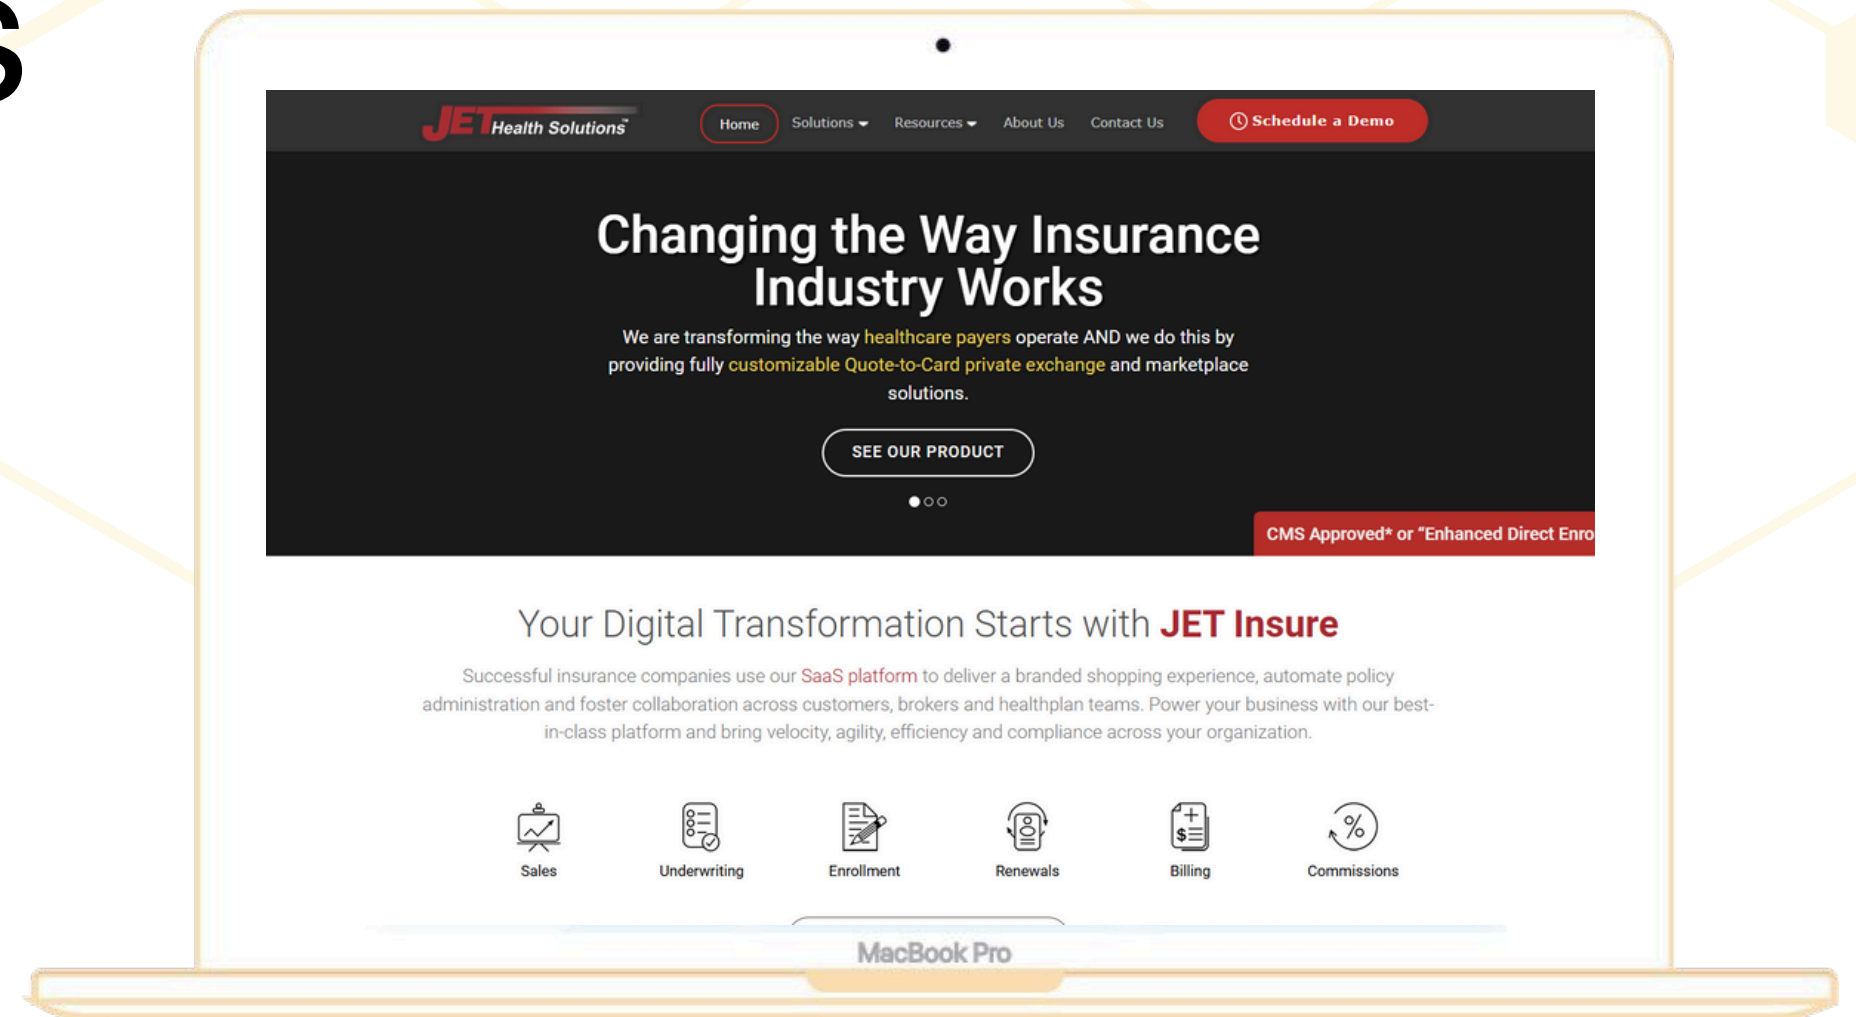

Jet Health Solutions

It is the enterprise-class online private exchange and marketplace quote-to-card insurance automation platform that empowers health plans to sell multiple lines-of-business.

www.jethealthsolutions.com

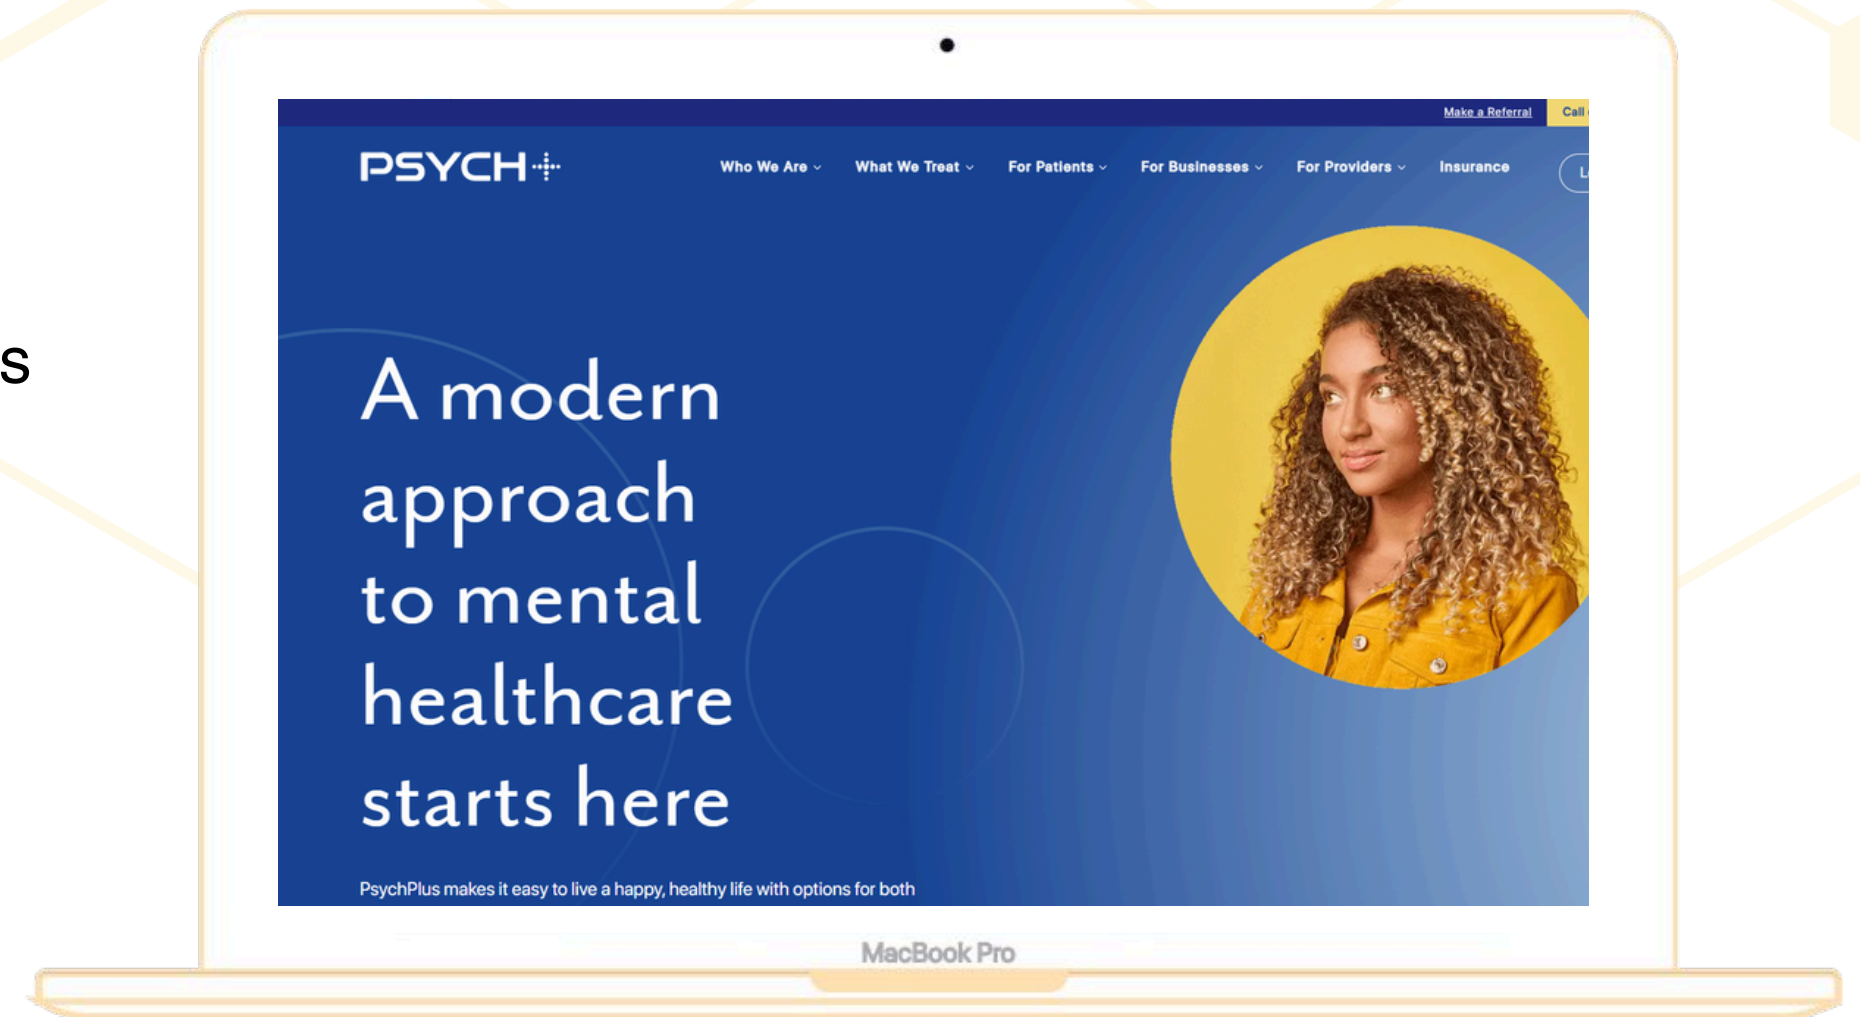

Psychplus

PsychPlus is a mental health platform offering both in-person and virtual care services from licensed psychiatrists and therapists. It offers quick mental health support with same-day appointments and accepts most insurance, making it widely accessible.
